

# DAVRAC RURAL PEST SERVICES

## Capability Statement

### ***Business Overview***

Davrac Rural Pest Services provides professional **vertebrate pest management** across Central West NSW, supporting agricultural productivity and livestock protection through structured, compliant pest control programs.

We specialise in managing **foxes, wild dogs, feral pigs, rabbits and deer**, delivering coordinated, property-specific solutions that achieve long-term reductions in pest pressure.

### ***Core Services***

- 1 Vertebrate pest management programs
- 2 Fox and wild dog control (including lambing protection)
- 3 Feral pig management and damage mitigation
- 4 Rabbit and small pest control
- 5 Deer management
- 6 Property-based pest assessments
- 7 Neighbour and regional coordination programs
- 8 Monitoring, mapping, and reporting

### ***Service Approach***

Davrac delivers **integrated pest management** combining:

- 1 Targeted baiting and trapping
- 2 Monitoring and activity tracking
- 3 Coordinated multi-property programs
- 4 Targeted ground shooting where required
- 5 Follow-up and reinfestation prevention

All programs are designed to achieve **measurable, ongoing reduction in pest populations**.

### ***Government & Agency Capability***

Davrac supports councils, Local Land Services, landholder groups and government-funded pest programs aligned with Biosecurity NSW frameworks.

### ***Compliance & Accreditation***

- 1 Fully licensed pest control operator (NSW)
- 2 Firearms licensed and compliant
- 3 Animal welfare requirements adhered to
- 4 Biosecurity NSW aligned practices
- 5 \$20M Public Liability Insurance

### ***Geographic Coverage***

Central West NSW including Dubbo, Narromine, Wellington, Gilgandra, Trangie, Warren, Coonamble and Nyngan.

### ***Key Strengths***

- 1 Strong focus on livestock protection outcomes
- 2 Proven reduction in pest pressure
- 3 Neighbour-based program coordination
- 4 Clear reporting for landholders and agencies
- 5 Deep understanding of local pest behaviour and seasonal risk

## ***Results Delivered***

- 1 Reduced lamb losses during high-risk periods
- 2 Reduction in fox and wild dog activity
- 3 Control of feral pig damage
- 4 Improved pasture condition and productivity
