

Rural Pest Management Operations

Environmental management, thermal surveying and field operations

DAVRAC

Responsible field operations across regional NSW

Rural Pest Management Operations

Environmental management, thermal surveying and field operations

 CORE CAPABILITIES

Thermal survey operations

Environmental management

Risk and compliance

Field-based reporting

Leadership grounded in field experience

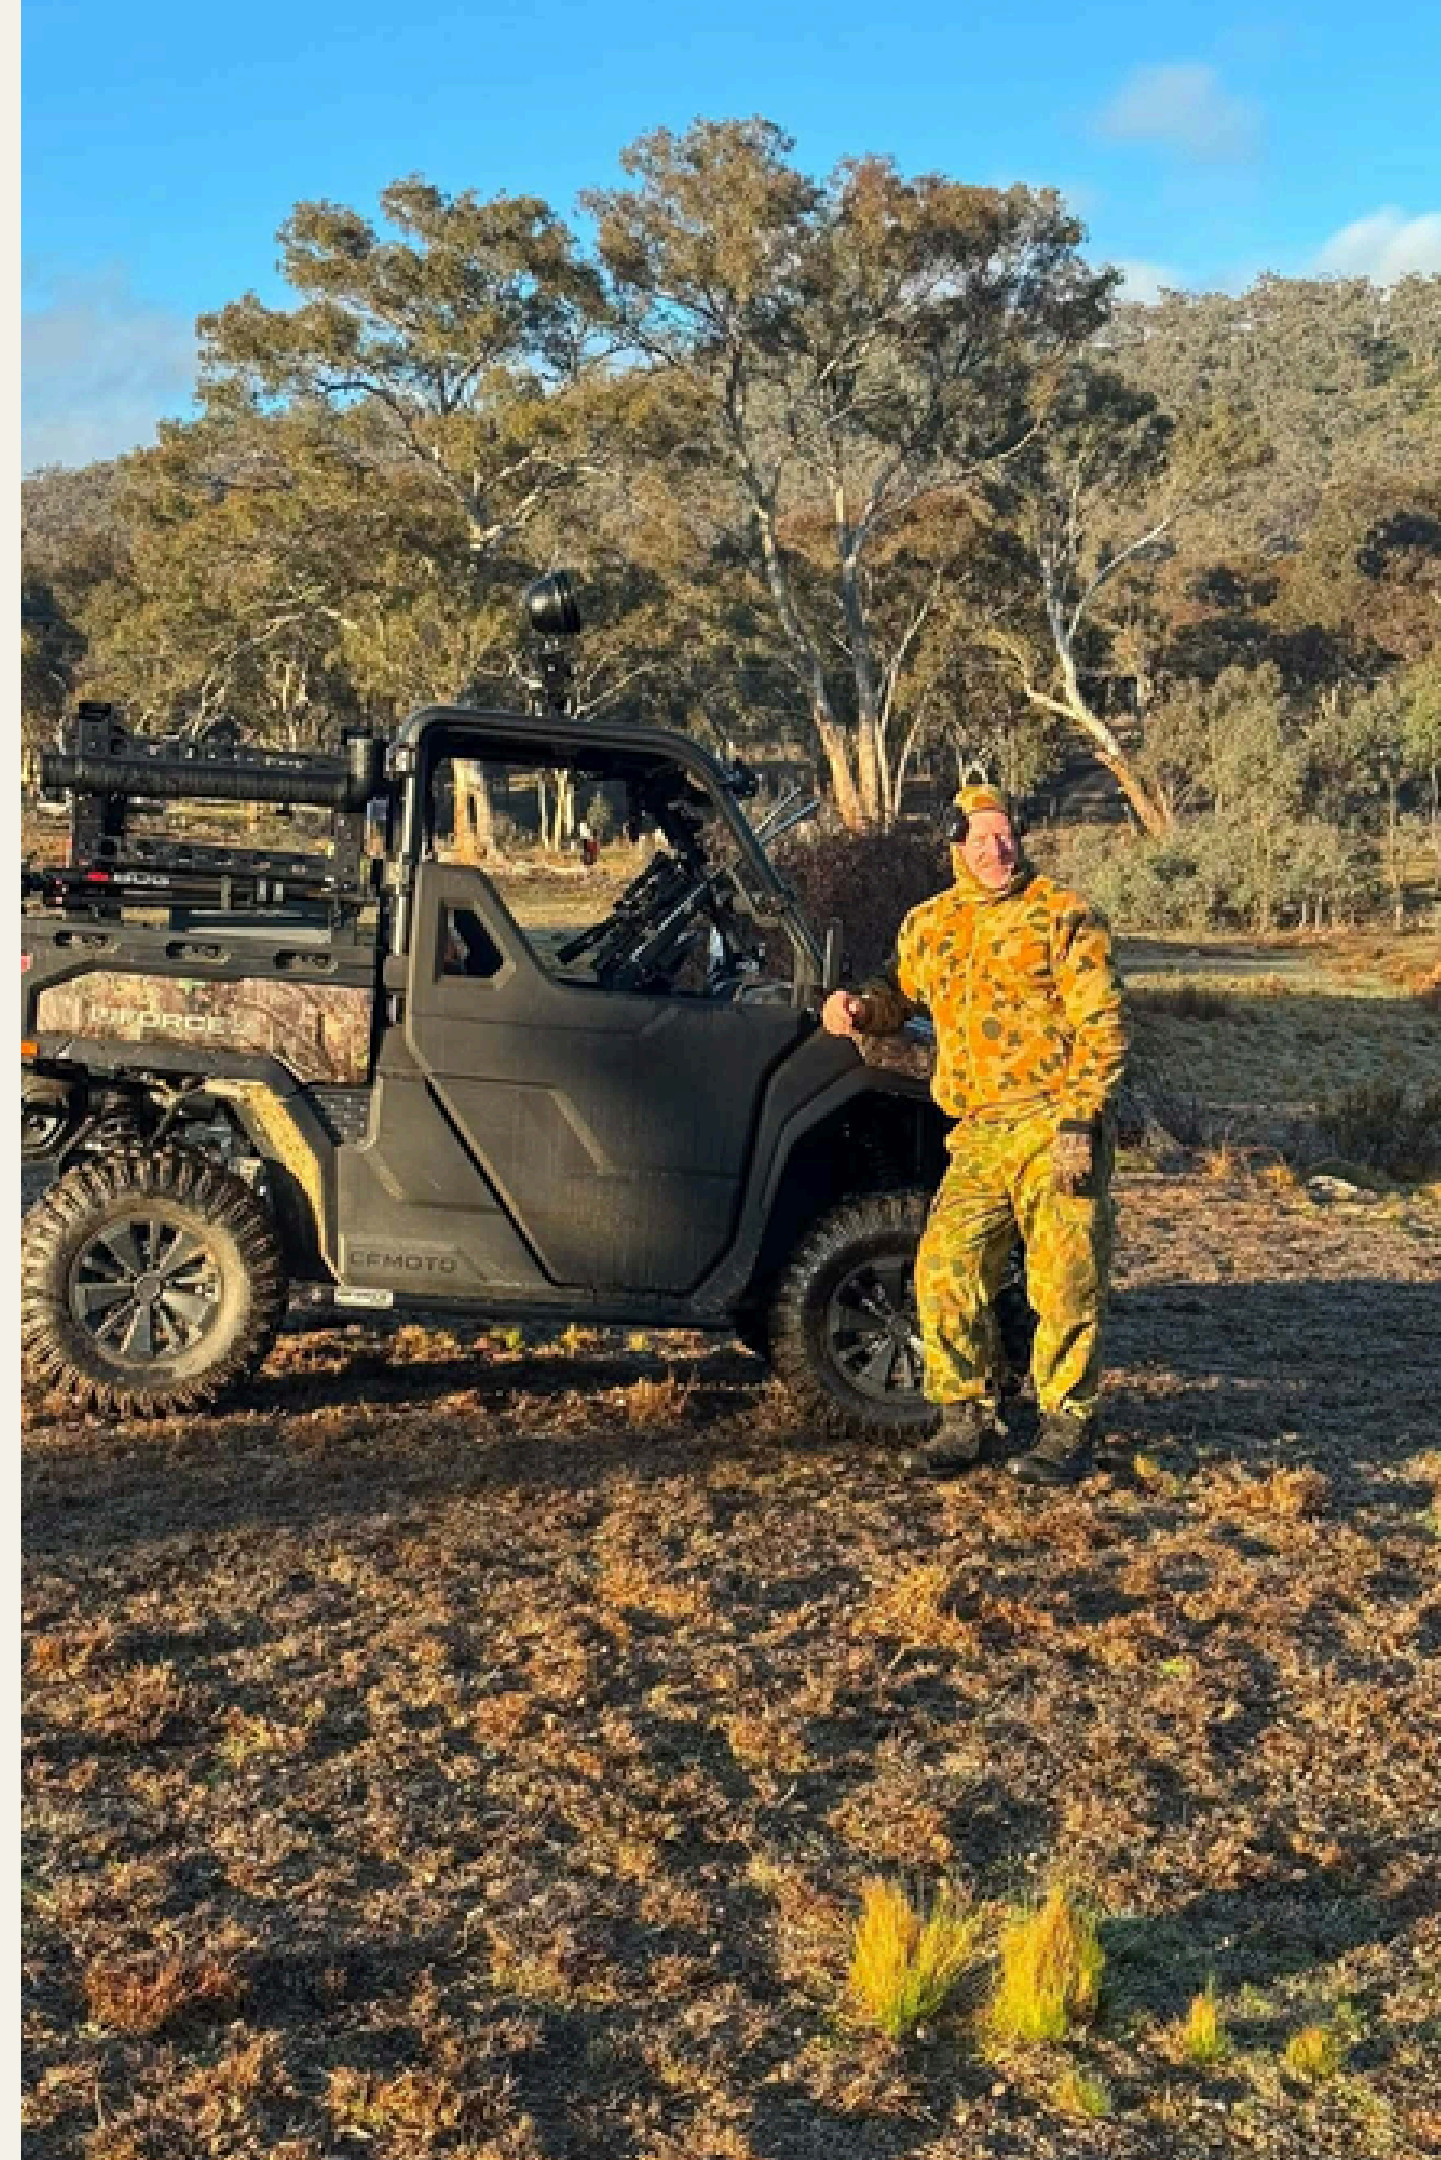

Davrac delivers practical rural pest management and environmental services for public-sector, land management and infrastructure clients.

David Rivett

DIRECTOR • OPERATIONS LEAD

David leads planning, mobilisation and field delivery, bringing an evidence-led approach to safety, compliance and defensible reporting.

“Responsible management. Reliable evidence. Better outcomes for land, people and communities.”

Four capabilities. One accountable field partner.

Integrated services designed for regional conditions and procurement scrutiny.

01 Thermal survey operations

Planned detection, georeferenced observations and survey evidence.

02 Environmental management

Practical controls that protect land, habitat and waterways.

03 Risk and compliance

Documented checks aligned to legislation and client requirements.

04 Field-based reporting

Clear records, traceable findings and decision-ready summaries.

Equipment and technology schedule

Indicative schedule — final allocation confirmed at mobilisation.

EQUIPMENT	SPECIFICATION	FUNCTION	AVAILABILITY
Thermal imaging platform	Radiometric sensor; GPS enabled	Detection and survey evidence	Project allocated
4WD field vehicles	Regional terrain configuration	Safe access and mobilisation	Fleet available
Field data capture	Offline forms; geotagged records	Traceable observations	Standard issue
Communications kit	Satellite / UHF capability	Remote-area contact	As required
Environmental controls	Wash-down and containment kit	Biosecurity assurance	Standard issue

Technology note • Proprietary workflows and advanced sensors can be configured to client scope, data-security and reporting requirements.

Regional reach, local operating discipline

Flexible deployment across regional NSW, supported by project-specific field hubs, remote-area communications and documented mobilisation controls.

ILLUSTRATIVE SERVICE ZONES

Northern Tablelands

Central West

Riverina

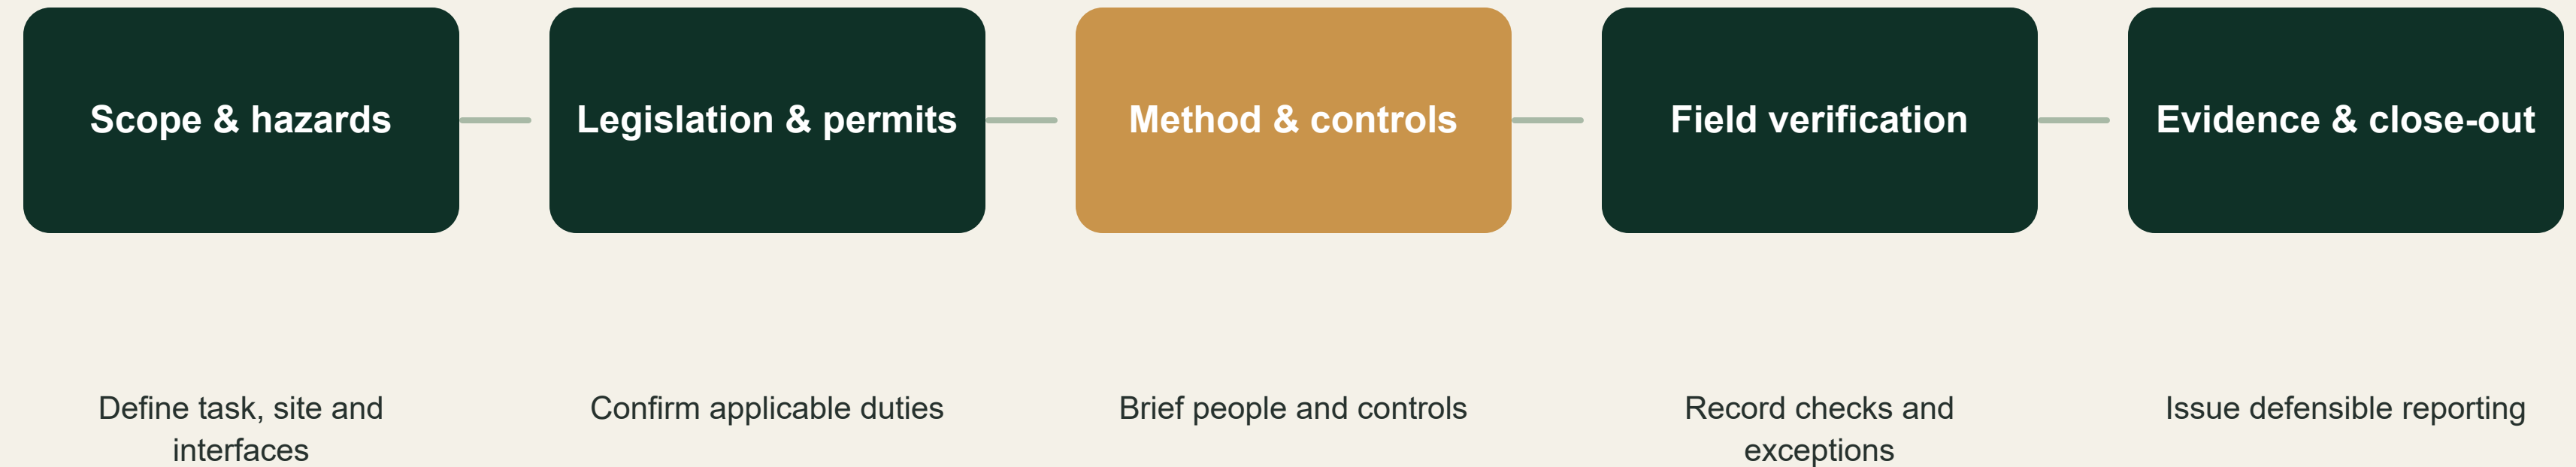

South East

Final coverage and response times confirmed against scope, access and seasonal conditions.

Controls embedded from planning to close-out

A traceable operating framework for field delivery in regulated environments.

Legislative reference set • Biosecurity Act 2015 (NSW) • Protection of the Environment Operations Act 1997 (NSW) • Work Health and Safety Act 2011 (NSW) • client-specific controls

Safety and biosecurity are operating systems

Not a checklist added at the end.

WHS governance

Project risk assessments, SWMS, pre-starts and incident pathways.

Biosecurity hygiene

Clean-down, movement controls and site-specific contamination protocols.

Competency assurance

Role-based induction, licences, refresher training and verification.

Remote field safety

Journey plans, communications, weather monitoring and escalation.

Environmental controls

Sensitive-area buffers, waste controls and non-target safeguards.

Continuous improvement

Lessons captured, actions tracked and controls updated.

Demonstrated outcome: landscape-scale control

CLIENT [CONFIDENTIAL] • [REGIONAL NSW]

Planned and delivered an integrated field program across a complex rural holding, with transparent controls, repeatable monitoring and concise client reporting.

60%

target pest reduction

809ha

area assessed

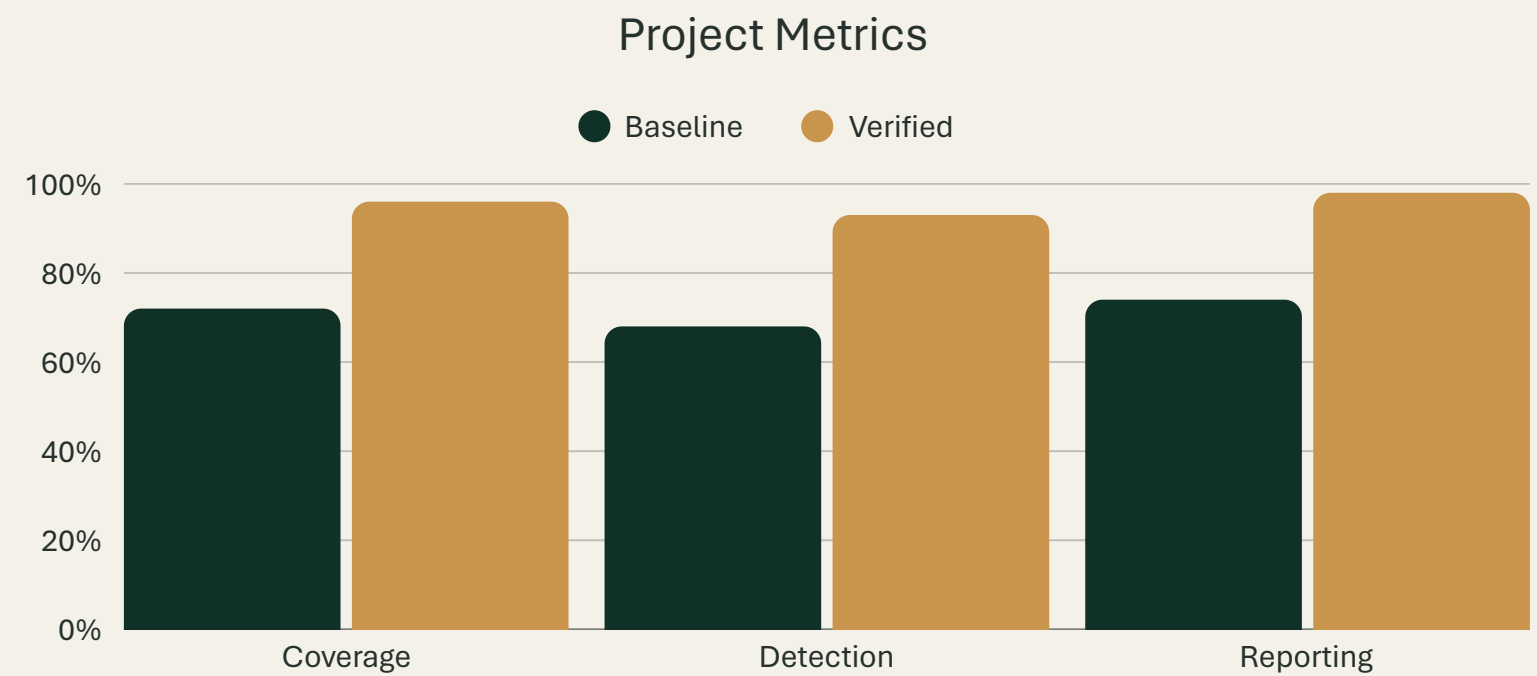

OUTCOME

Improved environmental condition with a clear evidence trail for the client's governance record.

Detection, verification and reporting that drive pest control outcomes

Regional NSW Golf Course

Our structured thermal operations combine strategic flight planning, advanced thermal imaging, precise geospatial data capture, and quality-assured reporting to deliver comprehensive property coverage, enhanced target detection, and reliable operational outcomes

Trusted where evidence and conduct matter

“Davrac’s team was professional, responsive and disciplined in the field. Reporting was clear and immediately useful.”

Alex Low - Chester Commodities

“The program was carefully planned, safely executed and supported by a strong evidence trail.”

David Wanaar - Albury Commercial Golf Club

A capable field partner for regional NSW

Compliance-led delivery • Regional mobilisation • Defensible evidence •
Clear reporting • Collaborative contract management

TENDER ALIGNMENT

Local Land Services • Crown Lands • Biosecurity NSW
Councils • Infrastructure • Environmental programs
